FIVE-BEAT SHIFT STORY - COVER

THE GREAT SHIFT

Nightlife economics is becoming a **sensor discipline.**

VENUES THAT MEASURE THEIR NIGHT ARE THE ONES THAT KEEP IT. THIS DECK DRAWS THE INSTRUMENTS.

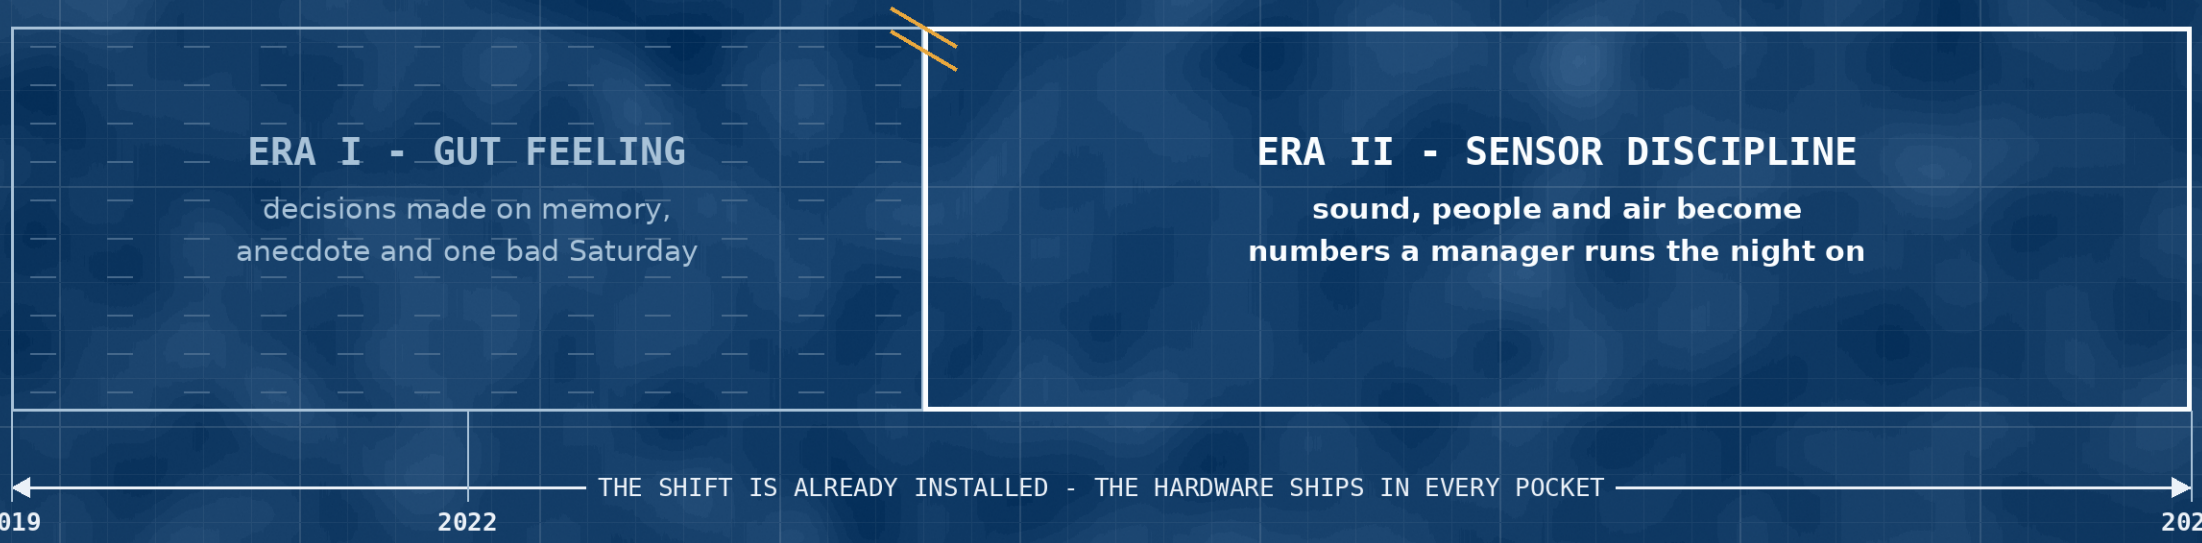
BEAT 1 / 5 - THE SHIFT

The night became a measurable discipline - venues see their floor or guess it

THE UNDENIABLE SHIFT: MEASUREMENT MOVED FROM EXPENSIVE INSTRUMENT TO POCKET HARDWARE



GERMANY: 32,455 BARS & PUBS | EUR 8.05B NET TURNOVER SRC: EUROSTAT NACE I5630, 2024 - OFFICIAL DATA

THE MEASURED VENUE DOES NOT WORK HARDER - IT SIMPLY KNOWS WHAT LAST NIGHT COST.

BEAT 1 / 5 - WHY NOW

Regulation, stress and neighbours now push every venue toward measurement

THREE INDEPENDENT FORCES, ONE RESULT: THE UNMEASURED NIGHT IS BECOMING UNSELLABLE

F1 - REGULATION

TA Laerm night limits apply at the protected receptor: 40 dB(A) night, general residential (commonly cited - verify vs TA Laerm Table 1)

ADMINISTRATIVE FRAMEWORK

F2 - VENUE STRESS

Berlin: 73% of clubs below pre-pandemic revenue; 89% report higher costs (Clubcommission survey, 2023 - BERLIN ONLY)

SECTOR SURVEY - BERLIN-SPECIFIC

THE HONESTY RULE

No verified nationwide percentage of German venues facing noise complaints - and no verified national closure count - exists. This deck frames noise as documented risk, never as a made-up national statistic.

THE VENUE

32,455 BARS & PUBS IN DE (EUROSTAT 2024)

F3 - DISPLACEMENT RISK

Documented resident-conflict displacement: LiveKomm 'Red List' - 20 of 21 listed venues in large cities (undated, via miz.org)

NO VERIFIED NATIONAL CLOSURE % EXISTS - WE USE NONE

Measured venues compound - unmeasured venues lose by quiet inches

SAME CITY, SAME NIGHT, SAME MUSIC: THE DIFFERENCE IS WHETHER ANY OF IT WAS SEEN

BEAT 3 / 5 - THE PROMISED LAND

The promised land: every night measured, proven - and priced accordingly

DELIBERATELY DESIRABLE, DELIBERATELY HARD TO BELIEVE. THAT IS THE POINT OF THE PROMISE.

EVERY NIGHT, MEASURED
sound - people - air, continuously

EVERY CLAIM, PROVEN
signed records, inspector-ready

EVERY ROOM, PRICED
margins seen seat by seat

HARD TO BELIEVE? GOOD. BEAT 4 SHOWS THE CAPABILITIES THAT MAKE IT BELIEVABLE - NO MAGIC INVOLVED.

BEAT 3 / 5 - FEASIBILITY

Hard to believe - until you price the drawing instruments

THE MEASURING STACK GOT CHEAP, BORING AND UBIQUITOUS. EXTERNAL BENCHMARKS, LABELED:

BEAT 4 / 5 - CAPABILITIES

No magic reaches the promised land - three engineered capabilities do

WE CANNOT GET YOU THERE BY MAGIC. HERE IS WHAT WE CAN ACTUALLY BUILD, SHEET BY SHEET.

A

SENSE

floor-grade sensor mesh: sound - people - air, live

B

UNDERSTAND

one night-number from a thousand raw readings

C

PROVE

signed night records an inspector will accept

SCALE: NONE REV: A DATE: 2026-10-30	CONFIDENTIA

BEAT 4 / 5 - CAPABILITY A

We can see the whole floor tonight - sound, people and air, in real time

CAPABILITY A: FLOOR-GRADE SENSOR MESH, INSTALLED IN AN AFTERNOON, READING dB(A), COUNTS AND AIR

WHAT IT MEASURES

SOUND
dB(A) continuously, octave bands, peaks flagged against limits

PEOPLE
zone occupancy and flow, no cameras, no faces

AIR
CO2 / temperature / humidity, ventilation you can defend

ESP32-S3-CLASS SENSORS - RUST FIRMWARE - ON-DEVICE AGGREGATION. PRIVACY BY GEOMETRY.

HARDWARE: EUR 199 / SENSOR - PLACEHOLDER

BEAT 4 / 5 - CAPABILITY B

We can turn a thousand raw readings into one number worth running a night on

CAPABILITY B: INGEST, STORE, REDUCE - THE PIPING AND INSTRUMENTATION OF A VENUE'S NERVOUS SYSTEM

WHAT THE MANAGER OPENS AT 04:00

peak dB(A) vs limit line - was the night defensible?
people-flow by zone - where the room actually filled
one comparable score per night - last 30 nights, ranked

SERVICE: EUR 149 / VENUE / MONTH - PLACEHOLDER
PER VENUE, ALL SENSORS INCLUDED.
HARDWARE BILLED SEPARATELY (SHEET 08).

BEAT 4 / 5 - CAPABILITY C

We can hand every night a signed record your inspector will accept

CAPABILITY C: THE NIGHT, NOTARIZED - MEASUREMENTS, LIMITS AND SIGNATURES IN ONE DOCUMENT

WHY A RECORD BEATS A PROMISE

inspectors read documents, not intentions - so the defence is the document itself

the same record is the venue's revenue case: how loud, how full, how priced - per night

append-only chain = the history cannot be edited after a dispute

MOCKUP - NO COMPANY FIGURES ON THIS SHEET

VERIFIED NIGHT RECORD - NR-YYYY-MM-DD-NNN

CHAIN:	SHA-256, APPEND-ONLY
SIGNATURE:	ZITADEL SSO - VERIFIABLE

* LIMITS APPLY AT THE PROTECTED RECEPTOR, NOT INSIDE THE CLUB. COMMONLY CITED - VERIFY VS TA LAERM TABLE 1. SPERRZEIT (CLOSING HOURS) IS JURISDICTION-SPECIFIC - THIS DECK QUOTES NO NATIONAL CLOSING TIME.

BEAT 5 / 5 - EVIDENCE

The evidence is already on the wall: interviews, partners, a waitlist

BEAT 5: TRACTION AS PROOF THAT THE STORY COMES TRUE - EVERY FIGURE IS A REGISTER PLACEHOLDER

→	**40**	**VENUE INTERVIEWS CONDUCTED** the problem was heard at the bar, not the boardroom	PLACEHOLDER
→	**5**	**DESIGN-PARTNER LOIs SIGNED** operators willing to co-build the record	PLACEHOLDER
→	**3**	**PILOT VENUES INSTALLING - Q1 2027** instruments into real rooms	PLACEHOLDER
→	**120**	**WAITLIST VENUES** demand observed before a single euro of CAC	PLACEHOLDER
