PILOT VENUES

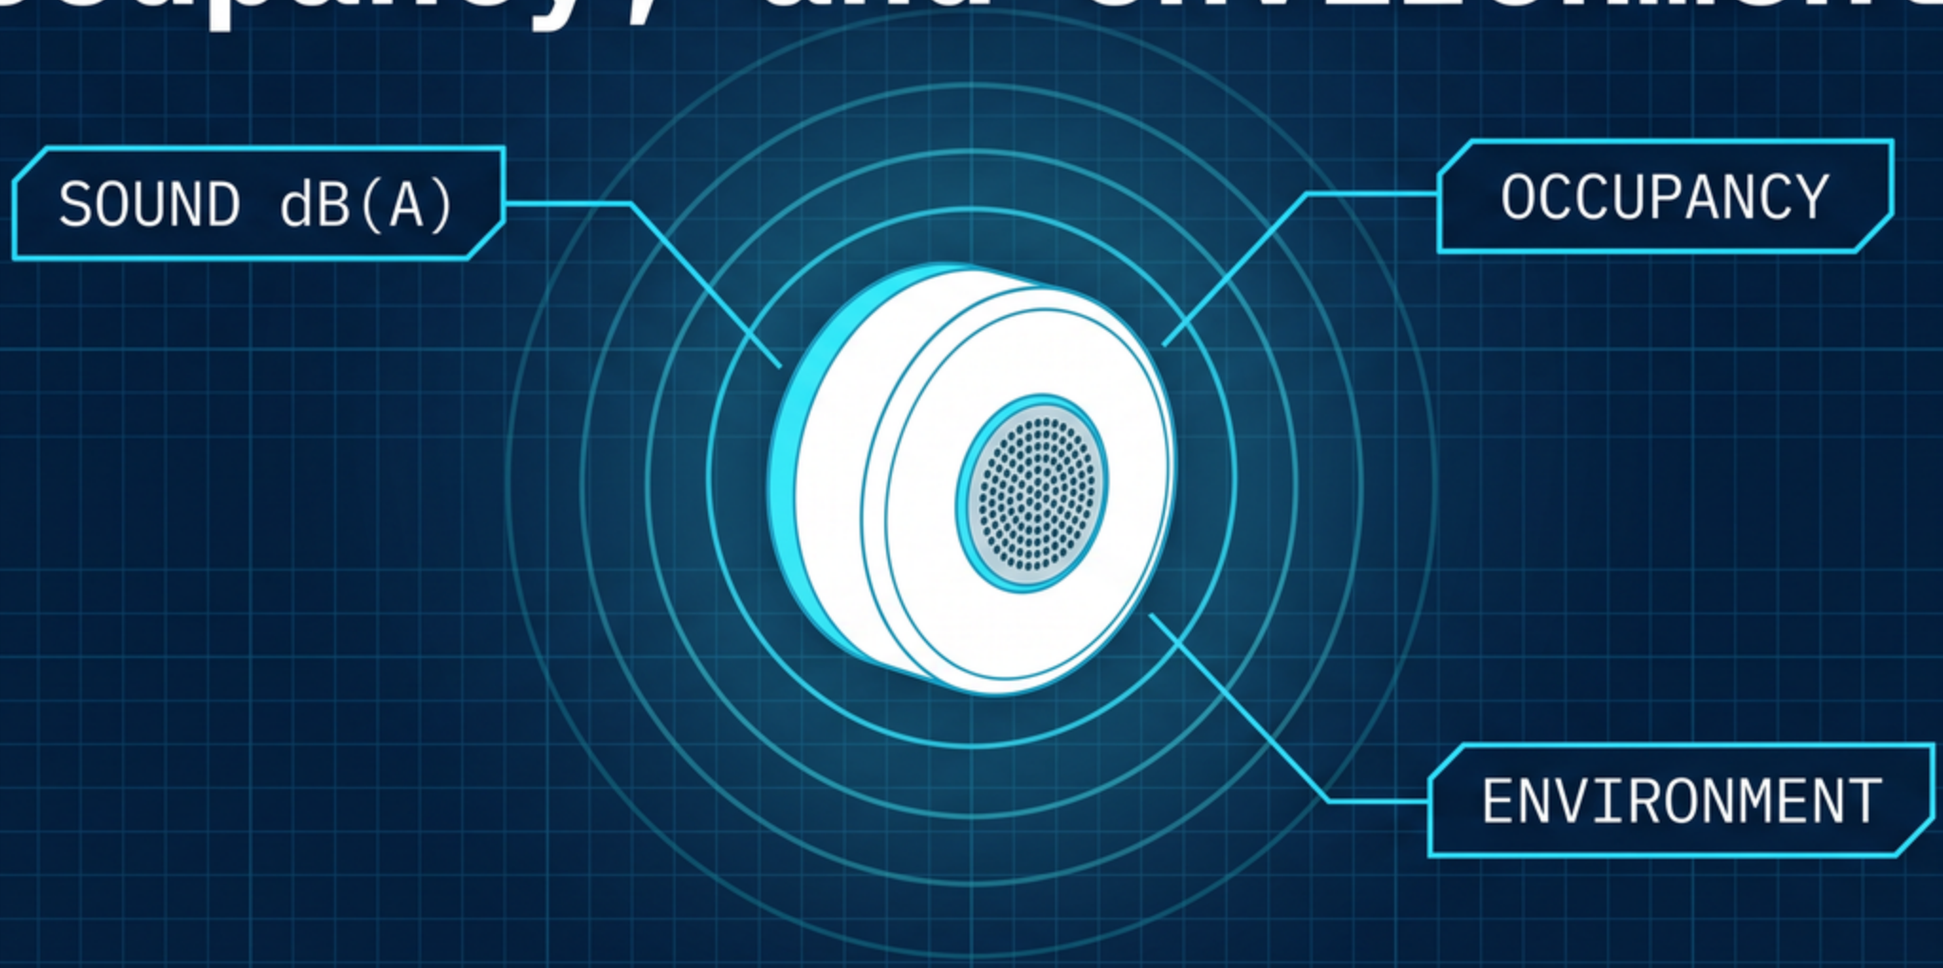

120

WAITLISTED VENUES

40 VENUE INTERVIEWS · 25 SENSORS BUILT

Company metrics are pre-seed placeholders pending pilot data — Placeholder Metrics Register.

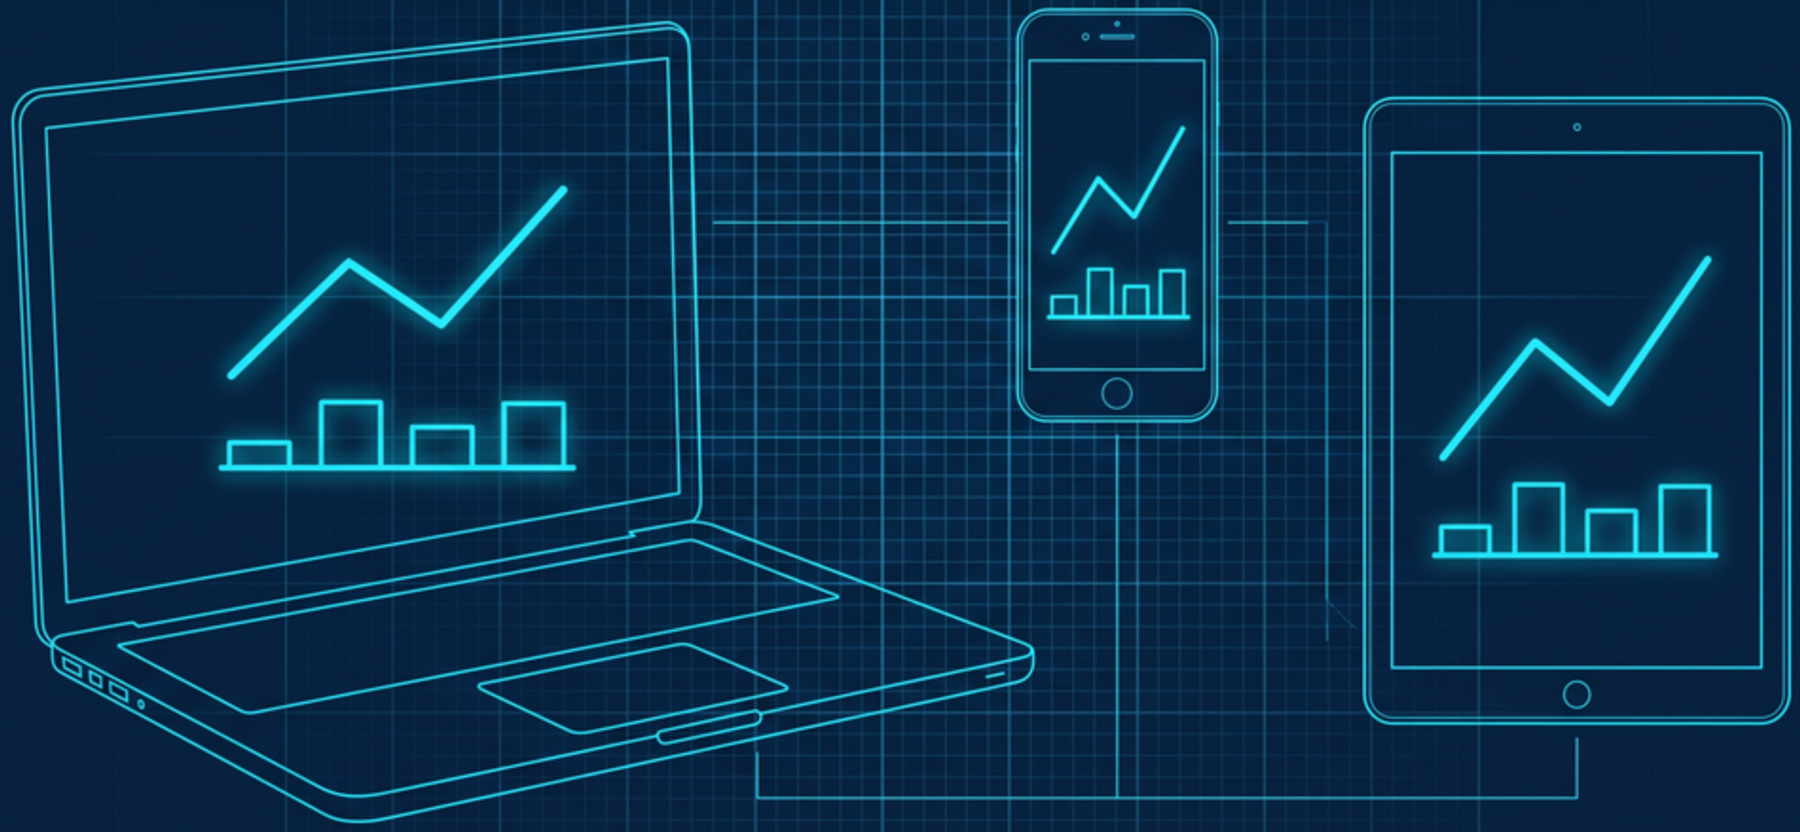

One sensor measures sound, occupancy, and environment.

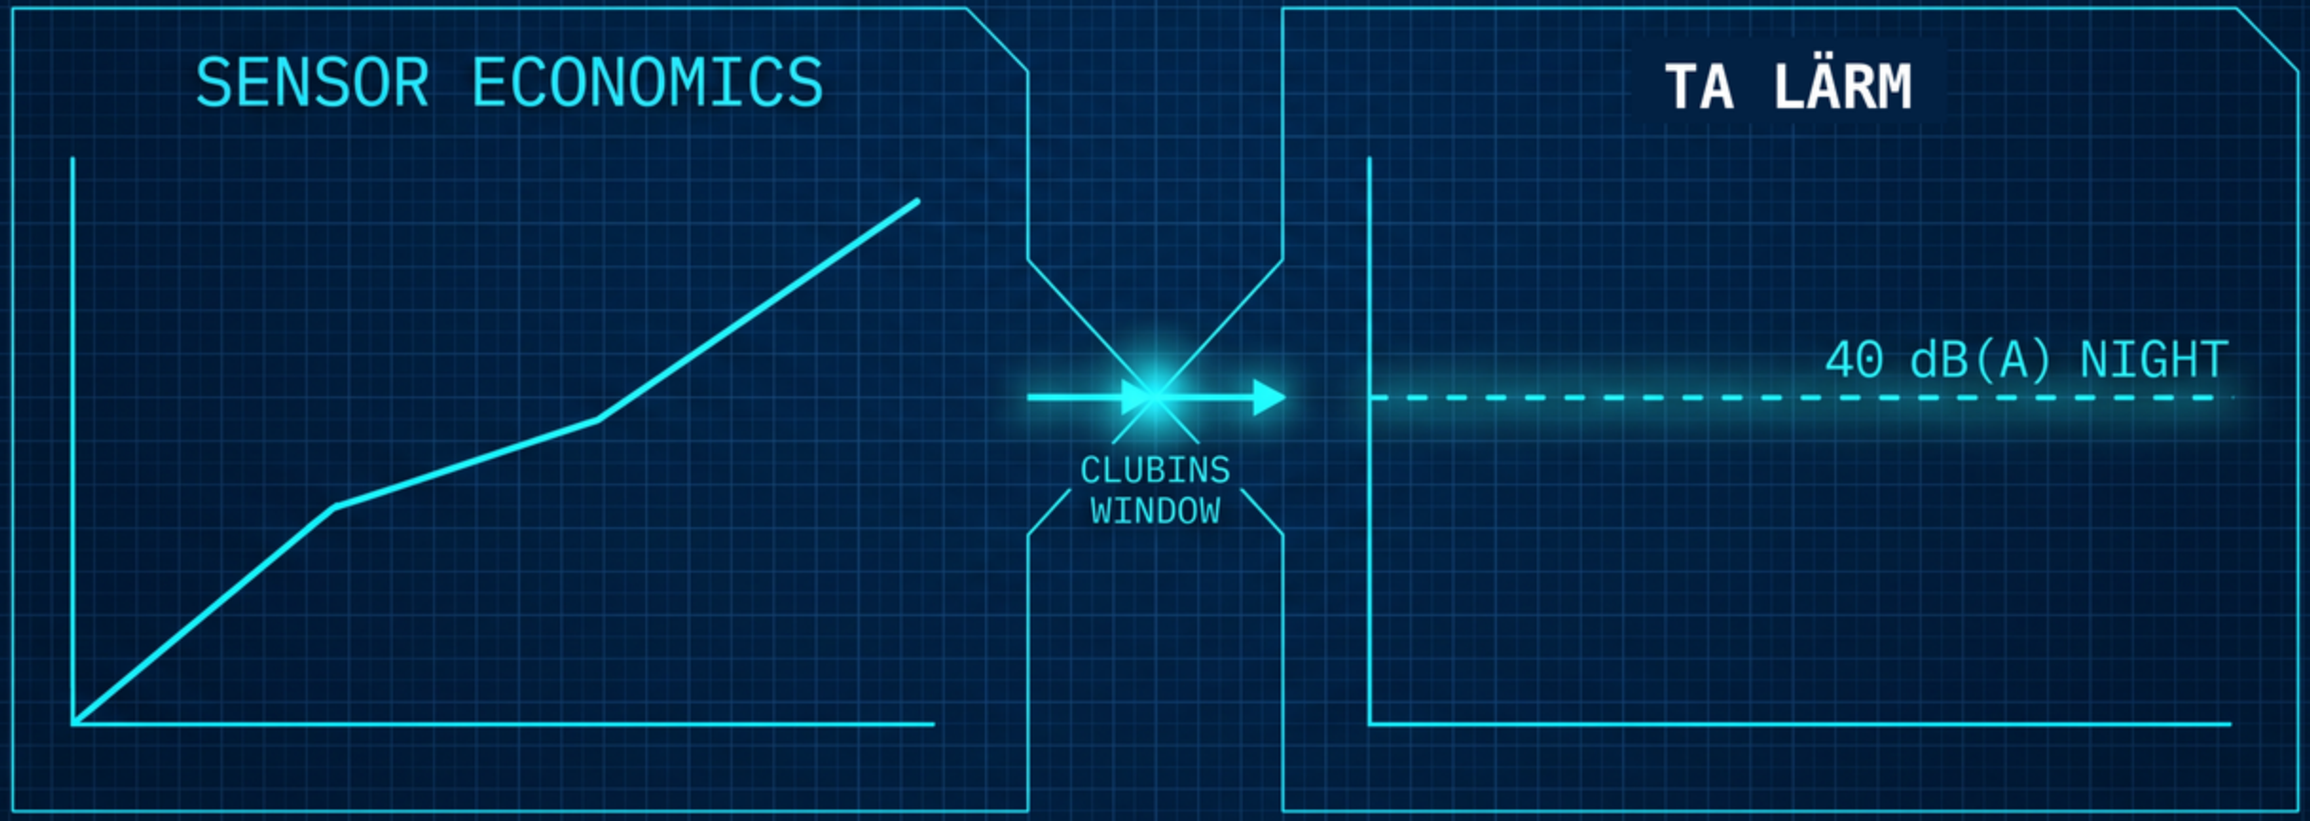

Rust firmware. Go ingestion. ClickHouse. Flutter.

Live dashboards on web, Android, iOS.

Why now: sensor economics meet regulatory pressure.

TA Lärm night imission limit at protected receptor (general residential); sensor-market size: commercial estimate (IndexBox 2025).

Bottom-up market: venues × €149 a month.

32,455
GERMAN BARS & PUBS
