CLUBINS

The venue operating system starts with sound.

Pre-seed 2026

Venues run the night on gut feeling.

40 venue interviews —
the same answer.

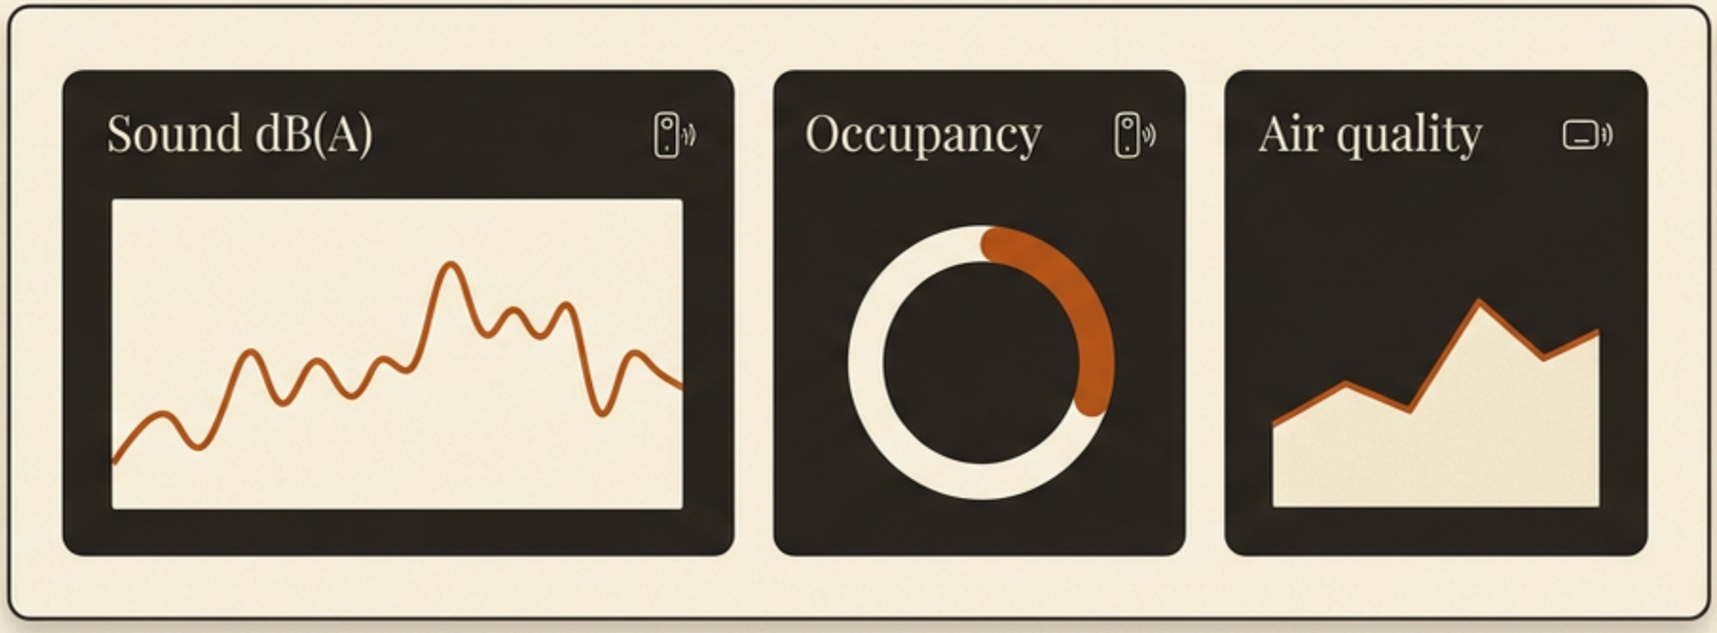

VISION

Tomorrow's venues run on their own data.

Every room, every hour, measured.

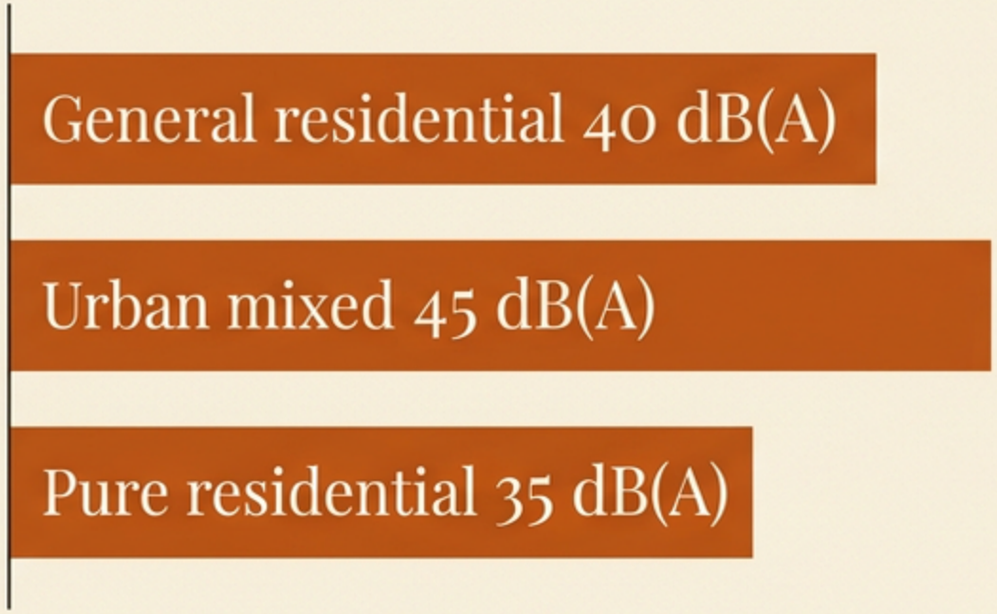

Clubins is live: sound, occupancy, environment.

Styled illustration of the product dashboard

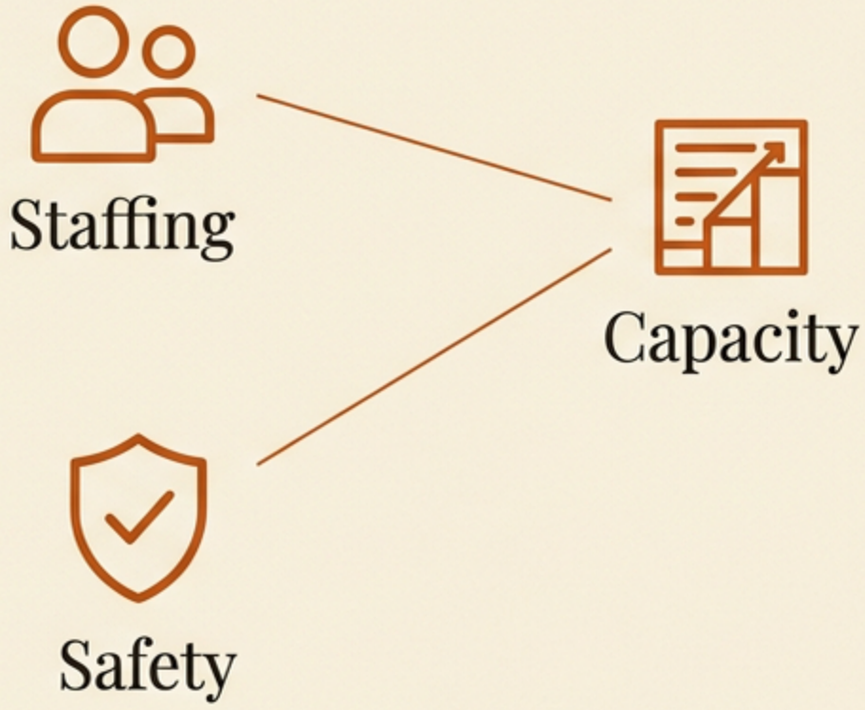

The wedge: noise compliance and daily operations.

Comply

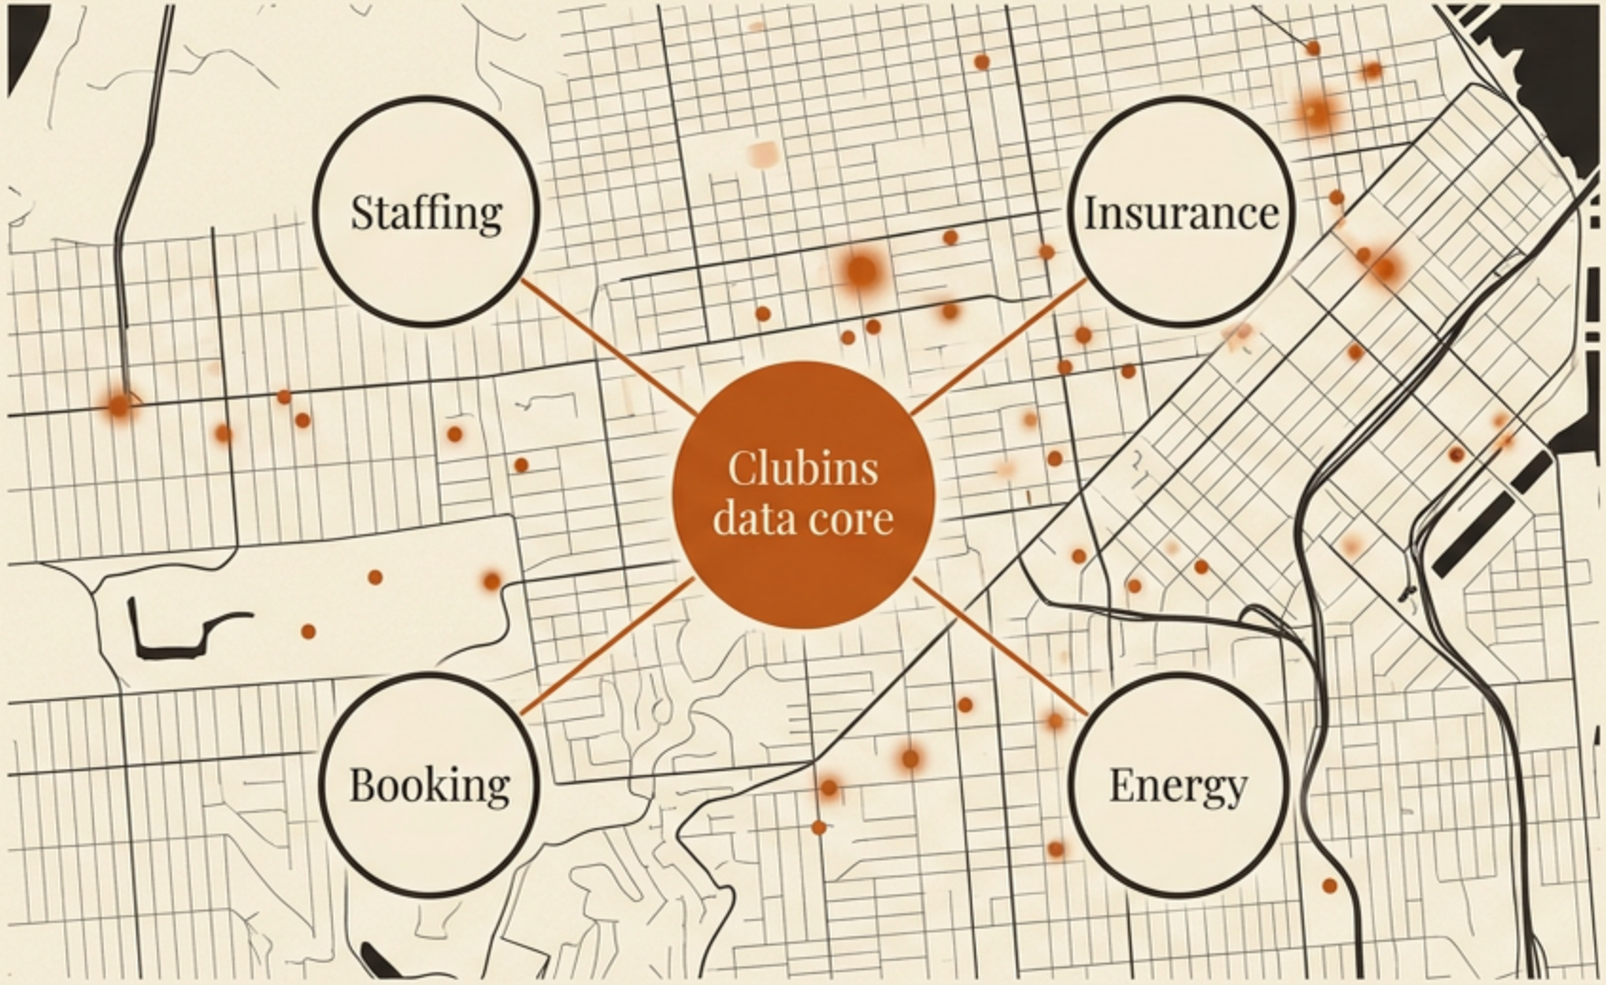

TA Lärm night limits at the receptor

Operate

The surface: staffing, insurance, booking, energy.

The night economy is huge and unmeasured.

€8.05B — bars & pubs turnover, 2024 (Eurostat)

32,455 — bars & pubs, 2024 (Eurostat)

≈2,000 — live-music venues (Initiative Musik)

≈$8.2B — smart-building sensors, est. (IndexBox)

Sensor figure: commercial estimate, not summed

Squeezed venues must become data businesses.

73%
— below pre-pandemic revenue

89%
— higher costs

20%
— fewer guests

Median venue profit: €8,000 a year (2019)

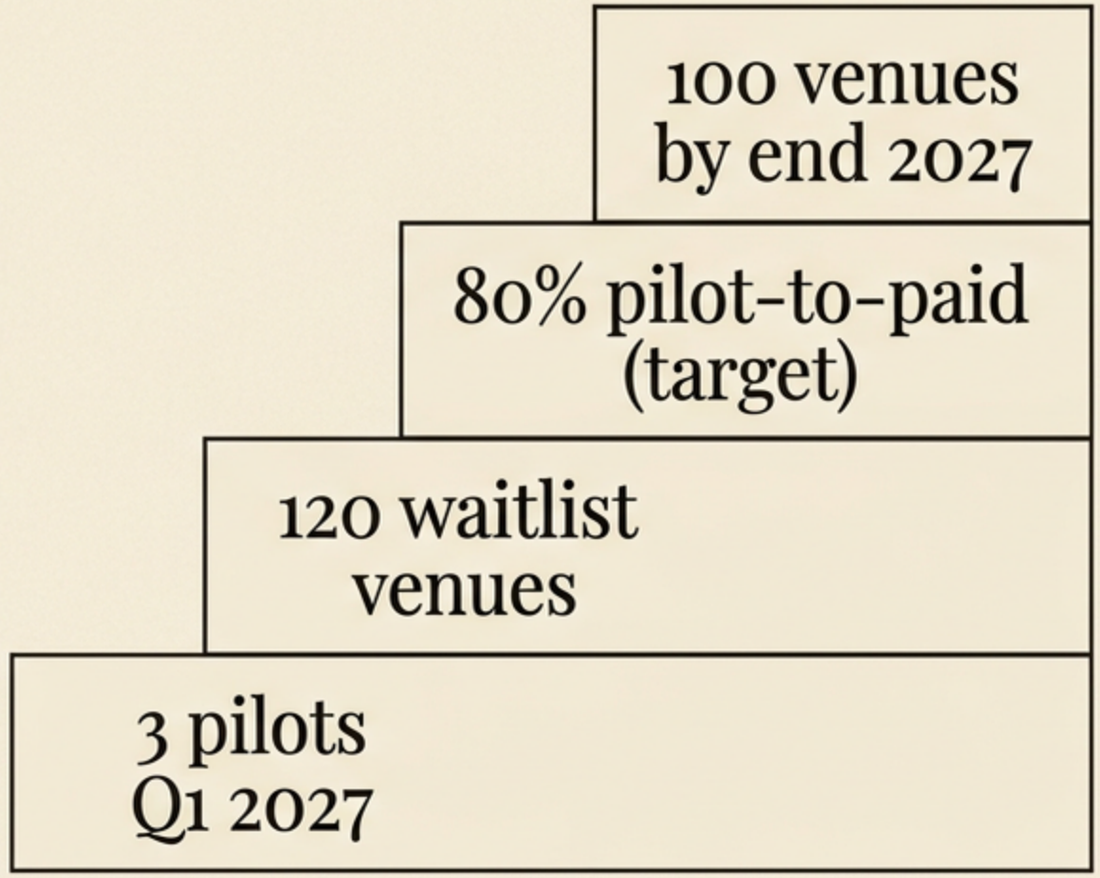

Sources: Clubcommission Berlin survey 2023 (Berlin venues) · Initiative Musik 2019

Model: subscribe per venue, expand per seat.

€149 €

per venue, per month

€ €199 per sensor

Team: builders who run their own infrastructure.
