01 PROBLEM

VENUES RUN THEIR NIGHTS ON GUESSWORK.

The room knows. The operator doesn’t.

02 YOUR SOLUTION

THE ROOM REPORTS ITS OWN NUMBERS.

3
LIVE INPUTS

Clubins measures sound levels, occupancy and air in bars and clubs — live, on the dashboards staff already open.

04 UNDERLYING MAGIC

THE SENSOR THINKS BEFORE THE CLOUD.

Sound, occupancy, air — resolved on the sensor, streamed live to the core.

06 COMPETITION

NIGHTLIFE IS TOO LIVE FOR DASHBOARDS.

BUILDING-MANAGEMENT SYSTEMS	STATIC, NOT LIVE
PEOPLE COUNTERS	COUNTS, NOT DECIBELS
ACOUSTIC CONSULTANTS	ANNUAL, NOT NIGHTLY

Clubins sells the night shift, not facilities.
