The owner’s second brain.

Clubins · Seed pitch

‘Marta runs three rooms and a thousand decisions a night.

Situation

The job: a full house, a quiet neighbor, a license intact.

Functional · Emotional · Social

Her tools: a clipboard,
a decibel app, and hope.
Room 1:
Room 2:
Room 3:
Room 4:
MASONITE
87 dB
MAX: 94 dB, AVG: 82 dB

None of them see the whole room.

Sound: she knows the risk before the neighbor does.

The hire — functional

People: she sees the floor before it sees trouble.

The hire — emotional

Air: the room fixes itself before guests feel it.

The hire — environmental

The morning report she didn’t have to write.

Evidence of progress

Five LOIs. Three pilots. 120 waitlisted.

32,455 venues that must run on data.

€8.049B yearly bar-and-pub turnover — Source: Eurostat NACE I5630, 2024

Market sized by the job, not by a software category

€500k to give every owner a second brain.

Pre-seed SAFE · 12-month runway · 2 engineering hires, 200 sensors, 10 pilot venues
